GDC 302621

Patient-focused dentist, qualified in 2022, with experience across mixed NHS and private practice. Developed a broad foundation in general dentistry, alongside a growing focus on aesthetic and restorative dentistry and endodontics. Experienced in providing comprehensive treatment from preventive and routine care through to complex restorative procedures, with a strong emphasis on thorough treatment planning, attention to detail and minimally invasive techniques.

Particularly motivated by aesthetic and restorative dentistry, with a focus on creating natural, functional and predictable outcomes tailored to each patient. Completed a one-year advanced course in aesthetic and restorative dentistry, gaining further training in minimally invasive cosmetic dentistry, smile design and facial aesthetics. Strong interest in helping patients achieve both long-term oral health and improved confidence through personalised treatment.

Recognised for a calm, approachable and professional manner, with a strong emphasis on building patient trust and providing a high standard of care throughout the patient journey. Committed to continued professional development through postgraduate education, mentorship and self-directed learning, with the aim of further developing expertise in aesthetic, restorative and endodontic dentistry within a progressive private practice.
